About World Campus

World Campus International is a non-profit organization, which provides a unique access to Japan.

As a participant of the World Campus Japan program you will be joining various activities together with your fellow travelers from all around the world. You will get the chance to interact with the local community and learn about Japan and the world.

In the evening and night you will be with your host family, giving a unique insight in Japanese daily life. You will be able to experience Japan from an inside perspective.

There will be three sessions to choose from, each one includes different parts of Japan. Each session lasts approximately three weeks. During that time you will visit three different cities and interact with the people in their communities. You can choose to join one, two, or all three sessions.

Elizabeth Kooper - the Netherlands

I have participated in the World Campus Japan program three summers in a row. I love the program so much that I just keep coming back!

Not only did I learn about Japanese culture, I also got to learn so much about the customs and cultures of the other participants in the program. All the host families were so welcoming and even though communication could be a bit hard at times the genuine feelings of being actually part of the family were always there. The groups and families were so diverse and kind, I made many close friends in just a short time that I still keep in contact with even years after the program ended!

I think I am not exaggerating when I say that World Campus Japan has helped me grow a lot as a person, made me more confident, more open, and more accepting. World Campus Japan really changed my life for the better!!
